Diagram illustrating a 2D array structure (likely a memory layout or data organization) with dimensions 6x6. The array is divided into four quadrants (A, B, C, D) by a dashed line. The quadrants are labeled A1, B1, C1, D1 (bottom-left) and A2, B2, C2, D2 (top-right). The columns are labeled A3, B3, C3, D3 (left) and A2, B2, C2, D2 (right). The rows are labeled A1, B1, C1, D1 (bottom) and A2, B2, C2, D2 (top). A shaded square is present in the bottom-left quadrant, specifically in the row labeled A1 and the column labeled B1.
